The NF Lauroyl Polyoxylglycerides Monograph was proposed for revision in PF 44(6) to include USP Reference Standards (RS) for both Lauroyl Polyoxylglycerides 300 and Lauroyl Polyoxylglycerides 1500. The revised monograph has been published in the USP-NF and will become official on August 1, 2020.

USP Lauroyl Polyoxylglycerides 300 RS, Catalog #1356993 is a new item. Current Lot F11460 is available for purchase.

USP Lauroyl Polyoxylglycerides RS, Catalog #1356950, Current Lot R102N0, has a valid use date of July 31, 2020 and will be available for purchase until April 30, 2020. At that time, the name of Catalog #1356950 will be changed to USP Lauroyl Polyoxylglycerides 1500 RS to align with the monograph revision.

Catalog# 1356950, Current Lot R102N0 and Previous Lot R054X0, may both be used for compendial testing through their assigned Valid Use Date of July 31, 2020. The next lot released will be labeled as USP Lauroyl Polyoxylglycerides 1500 RS and will be available for purchase prior to the official date on August 1, 2020.
